

Date: 07/12/2010

His Excellency President Jalal Talabani acclaimed the role played by the Central Bank of Iraq in the support and stability of the Iraqi currency. This came during a meeting in Baghdad on Tuesday December 7th 2010 with the Central Bank of Iraq Governor, Dr. Sinan Al-Shabibi.

His Excellency President Jalal Talabani pointed to the important role played by banks in the new economic environment of Iraq where the Central Bank of Iraq plays a key role through sound economic and monetary policies. The Central Bank Governor, Dr. Sinan Al-Shabibi is praised and cherished by everyone for his efforts in preserving the interests of the country, his commitment and dedication in the performance of his duties. Full support was reiterated for the success of his efforts in stabilizing the financial sector which is vital and important.

For his part, explained the Governor of the Central Bank, the financial situation of the country and the actions taken to stabilize the currency depend primarily on the political stability of the country and the economic and monetary policies of the Central Bank. In this regard, Dr. Sinan Al-Shabibi expressed his gratitude for the support and cooperation provided by His Excellency President Jalal Talabani, the parliament and the government for the success of the Central Bank of Iraq policies.
