

Naming CBI's Governor as the best Arab Central Bank Governor for 2018

The Governor of the Central Bank of Iraq, Mr. Ali Mohsen Ismail, received the Best Central Bank Governor of Arab Countries by the Union of Arab Banks during the 2018 Arab Banking Summit, which is held in the French capital Paris.

This recognition came in the light of the many achievements made at a local and international level in several areas, notably the maintaining exchange rate and closing the gap between the official rate and the market rate, as well as the significant development of the payment system and electronic payment systems, as well as the advanced work done in the field of AML/CFT.
