

The National Center for Health and Safety conducts checkups for CBI employees

The National Center for Health and Safety of the Ministry of Labor and Social Affairs in cooperation with the Health and Safety Section of the Central Bank of Iraq conducted professional medical checkups for employees of the issuing and vaults directorate.

The National Center explained that the checkups included blood, lung efficiency, hearing, and mental health, to ensure the safety of workers under the requirements of occupational health and safety established by the Ministry of Labor and Social Affairs.
