

CBI calls banks and electronic payment companies for the spread of ATM and POS points

The Central Bank of Iraq calls banks and electronic payment companies operating in Iraq to develop plans and strategies for the spread of ATMs and POS points in accordance with the number of electronic payment cards, in order to shift towards electronic payment and facilitate this service to the beneficiaries.

This bank confirms that there is no objection to the continuation of banks and payment companies to work through the agents / cash withdrawal outlets until the availability of adequate spread of ATMs and POS points.
